

**Tell Doug Ford we do not want any cuts to public education**

**Talking points for District 16 Members when speaking with your MPP:**

- Increasing the secondary class size average to 28:1 will mean less funding for our boards, which will force boards to pack more students into every class, this will mean fewer teachers available for our students
- We refuse to support any hiring freeze for teachers, ECEs or other school support staff
- No student should be forced to take an online course, it should be their choice. Our students learn differently and not all students have access to technology or high-speed internet at home
- It is unacceptable to make changes to the structure of autism service delivery that results in less access
- Demand the additional funding required to address the \$15.9 billion school repair backlog
- Cuts means less supports for mental health and well-being programs and initiatives
- Cuts to education mean fewer **RESOURCES**—less access to learning technology, closing of libraries and learning spaces, and the closing of community schools
- We refuse to support any further cuts to funding for our schools because we want protection of public education – access for everyone, opportunity for everyone, achievement for everyone and value for everyone

Let your MPP know that we do not want any more cuts to education. Find the list of your MPP'S on the D16 website [www.d16.osstf.ca/publiceducation](http://www.d16.osstf.ca/publiceducation)
